

Who Can Participate?

- We are looking for children ages 6-8 and at least one parent and/or legal guardian .
- Children with any food allergy.
- *Not all kids qualify

Does Your Child Have a Food Allergy?

Help Researchers Develop an Intervention to Keep Kids with Food Allergies Safe

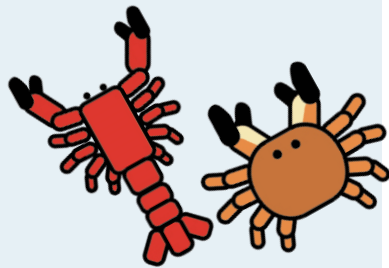

**KENT STATE**
UNIVERSITY

*The Pediatric Anxiety & Allergy
Research Clinic (PAARC)*

What Is This?

- This study works with parents and their child to develop a treatment manual designed to help kids stick to food allergy safety rules.
- Meet 5 times with our staff
- Most meetings takes 30 minutes or less
- Meet at your house or in our lab

Benefits to YOU

- Families can earn up to **\$100** for participation.
- Help our team create an intervention to help other kids with food allergies
